

# Get 22 CE credits

**4 hours** of classroom time

March 2, 2010

8:30 - 12:30

at the

Mass Association of Health Underwriters

in

Conference Room (S)

91 Cedar Street

Milford, MA

Lecture Topic:

## Does Your Policy Form Affect Your Health and Longevity?

In other words, does *having a larger provider network* with *easier access to specialists* lead to healthier patients? (We know that the larger network is far more expensive.)

Official course title: Policy Form and Treatment Outcomes Mass Course # C03168, 3 CE credits.

Lecturer: Gary Fradin

\*\*\*\*\*

**To receive 19 additional** Home Study credits, follow this simple process:

**Step 1: Read Overtreated** by Shannon Brownlee, Mass course # C02391

This fascinating, easy-to-read book explains why *many Americans get too much medical care* and *suffer poor outcomes as a result*. Marcia Angell of Harvard Medical School said 'this book could save your life.' The NY Times praised it. The most frequent feedback we receive in class: *everyone should read it*.

We do not provide this text. You can get it from amazon.com and most large bookstores. We will email a Study Guide to pre-registered students.

**Step 2: Attend the live lecture.**

The lecture summarizes and expands on the text. We expect a lively discussion.

**Step 3: Take the Home Study exam on Overtreated** after the lecture.

Exam takes about 15 minutes. Unlimited free retakes. Graded immediately.

Package price: \$199/person for 22 credits
